OUR OBJECTIVE

To ensure our valued clients receive excellent returns on their investments mainly through our small cap programs.

WHY INVESTORS CHOOSE PPP

Professional investors looking for better returns are starting to move away from standard asset classes like stocks, bonds and cash to Private Placement Programs (PPP).

Private Placement Programs traditionally have been the domain of institutional investors or high net worth individuals because of their complex nature. However, since 2008 and the introduction of Fully Managed 100% Capital Protected Private Placement Programs it is now easier than ever for traditional investors to participate in PPP programs.

Rock Spring Capital Private Placement Program (PPP) includes a trading portfolio of:

HEDGE FUNDS | MANAGED FUTURES | CURRENCY TRADING | REAL ESTATE | COMMODITIES

These asset classes are favored mainly because their returns have a low correlation with the assets value.

RISK PROTECTION

With a balance of Dynamic Trading Strategies, prudent Risk Management and Exceptional Liquidity our Private Placement Program (PPP) has consistently achieved outstanding historical results.

OUR SUCCESS IS ACHIEVED BECAUSE WE OPERATE A SERIES OF CLEARLY DEFINED RISK PROTECTION STRATEGIES INCLUDING:

-
- Disciplined investment rules
 - Strict asset control
 - An investment philosophy of meticulous risk management
 - All trading is constantly supervised by our risk executive
 - Effective regulation
 - Our experts execute our pre-defined and stringently managed strategy of diversification
 - We combine hedging strategies (buying and selling of contracts of the same value in opposite directions at the same time) in order to constant mitigate our risks
 - Based in one of the most well-regulated, reputable and secure financial centers in the world
-
